Software Version

NVR 3 Standard Server version: v3.0.10.34

NVR 3 Standard Workstation for Windows version: v3.0.10.34

Release Date

2015.05.15

New Features

1. (V3.0.10.26) Supported new models :
ACTi: E215, E223, E616, E618, E815, E817, E925
B22, B23, B46, B49
I27
2. (V3.0.10.20) Supported new models :
ACTi: E11A, E12A, E13A, E15, E16, E23B, E48, E617, E816,
E924M, E926M, E928, E928M, B210, B410, B82, I24,
I25, I44, I45, I910, V31, V32
Axis: Q6042-E, 241Q, 2400+
AVTECH: AVM500, AVM552, AVM583
Panasonic: WV-SP306, WV-SW395, WV-SW396
Level One: FCS-0030, FCS-0031, FCS-0071, FCS-1041, FCS-1131,
FCS-1135, FCS-1141, FCS-3052, FCS-3062, FCS-3071,
FCS-3081, FCS-3091, FCS-3101, FCS-3102, FCS-4041,
FCS-4101, FCS-4102, FCS-5042, FCS-5043, FCS-5051,
FCS-5052, FCS-5061, FCS-5062, FCS-6020,
WCS-0030, WCS-0050, WCS-6020, WCS-6050
3. (V3.0.10.20) Supported Bookmark management, Bookmark Search, Bookmark Dialog and export video with bookmark functions.
4. (V3.0.10.20) Supported PTZ function via ONVIF integration
5. (V3.0.10.20) Added GPS settings for NVR server and supported GPS Positioning manual settings for camera with new firmware v6.0.08 and newer versions.
6. (V3.0.10.20) Added specific recording schedule for a single date or a period as long as 400 days.
7. (V3.0.10.20) Added password protection for playback function and supported password validity period setting.

8. (V3.0.10.20) Added new language: German
9. (V3.0.10.20) Supported “default enlarged view” that allows the use of stream 2 on multi-channel live view and switch to stream 1 when pulling up single channel.

Enhancements

1. (V3.0.10.26) Supported Audio MPEG-4 AAC
2. (V3.0.10.20) The maximum pre-event buffer is changed from 5 seconds to 60 seconds, and post-event buffer is changed from 300 seconds to 3600 seconds.
3. (V3.0.10.20) Supported embedded instant playback
4. (V3.0.10.20) Supported Fisheye Ground mount setting for Fisheye and Hemispheric camera with camera firmware v6.0.08 and newer.
5. (V3.0.10.20) Supported customized motion region color
6. (V3.0.10.20) The maximum Pre-Event Recording buffer is changed to 60 seconds (default is 5 seconds), and Post-Event Recording buffer is changed to 3600 seconds (default is 30 seconds).
7. (V3.0.10.20) Added camera IR Exposure Compensation in Video Adjustment
8. (V3.0.10.20) The PTZ tab will be hide if the ONVIF camera does not support pan, tilt and zoom functions.
9. (V3.0.10.20) The number of preset points will be depended on device capability.

For example

Protocol	number of preset points
ACTi	256
Sony Visca	256
Dynacolor	256
Pelco D/P	32
Vicon	32
Samsung	16

Issue Solved

1. (V3.0.10.26) Go to preset point is not working sometimes via ONVIF
2. (V3.0.10.26) The exported avi file did not add Video information in file properties if the file size is more than 2GB.

3. (V3.0.10.26) Search ONVIF device will always show Authentication Failed.
4. (V3.0.10.26) Show recording icon when “Non-event Frame Rate” setting is 0 and no event occurs.
5. (V3.0.10.26) Event handler may be ineffective sometimes.
6. (V3.0.10.26) Show abnormal video in Live view unexpectedly and may mantle other available functions
7. (V3.0.10.26) NVR may stop record the device after deleting specific schedule setting on this device.
8. (V3.0.10.20) Export video processing is incomplete sometimes.
9. (V3.0.10.20) Script error when the domain user is logging in to NVR server and the user is added to multiple domain groups.
- 10.(V3.0.10.20) Smart search result may be inconsistent with same search conditions.
- 11.(V3.0.10.20) The recording does not include audio by manual record sometimes.

Limitations

1. Minimum Resolution is 1024x768.
2. You may need to open HTTP port 80 and ActiveMediaServer.exe in firewall. Or you can remove Anti-virus software and add exception in windows firewall.
3. Export Video function will need enough free space. The free space size will be depended on the image compression, frame rate, channel numbers, export duration time, and raw or avi video type. (If the free space is not enough, the Export result will still show Success.)
4. The account-naming rule is only English letters, numbers and specific symbols are allowed except some symbols “ / \ [] : ; | = , + * ? < > ”
5. When you configure the Disk Drive for recording, please make sure the “Free Space” is larger than “Reserve Space” in Setup page ->Storage tab.
6. Not support Variable Bit Rate mode.
7. Not support multicast mode.
8. Not support OSD Menu operation for speed dome camera.
9. SED and CAM series devices may not show correct Model Name.

10. For individual recording, if the total size is over 2 GB, or the video encoder type, frame rate, resolution of this channel's stream once altered during the selected Time Duration, this export video file will be divided.
11. Mobile Client cannot login NVR while using digest authentication.
12. Unable to login NVR with domain user while using digest authentication.
13. Not support ePTZ operation of 6VGA streaming mode. If camera is 6VGA mode, please operate the PTZ function through camera web configurator, or waiting for new KCM camera firmware v5.13.

Supported languages

Arabic, Czech, Dutch, English, French, German, Hungarian, Indonesian, Italian, Japanese, Polish, Portuguese, Romanian, Russian, Spanish, Simplified Chinese, Thai and Traditional Chinese.

Supported camera models

For supported non-ACTi cameras list, please refer to

<http://www.acti.com/3rdpartycamera>

NVR3 Installation

ACTi NVR 3 Standard is a typical web-based server/client system. There are two types of **Clients in NVR 3.0 system: Web Client** and **Workstation Client**. A user, connecting from whether web browser or workstation, will enjoy the same user interface and NVR functions.

- **Web Client:** the web version of interface to access NVR server without need of installing any client program to become a client. Logging in the NVR server is as simple as visiting a website through IE browser.

After the NVR3 server installation is complete, user can connect to <http://localhost:port> with Internet Explorer browser, and will see NVR login page.

- **Workstation Client:** the client application making accessing NVR server free from the use of browser .The workstation program that provide interface between users and the NVR server. It may be installed on the same PC as the NVR server, or they may be installed separately and connect to NVR3 Server via network.

Condition	Installation
New Installation NVR v3.0.10.20 and newer	Condition1

The performance of NVR is largely determined by the hardware PC capability. Please refer to “**Getting Started**” section in **NVR3 System Administrator's Manual** for all details about System Requirement, necessary prerequisites before installation, and installation procedure. If you want to substitute for another computer or re-install the NVR server, please refer to “**Back Up System Data**” section for getting more information.

- **Condition 1: (New installation/NVR v3.0.10.20 and newer Installed)**
 1. Execute NVR3 server
“ACTi_NVR_Standard_Server_Install_v3.0.10.34.exe” installation application.
 2. Follow the instructions of Install Shield Wizard to proceed and complete the installation.

If IIS Web Server has been installed on the computer and you are asked to restart the computer during installation process, please choose “Yes, I want to restart my computer now” to restart, and after the computer reboots, please continue to complete the NVR installation.

The **IP Port Checker** program will pop up to confirm the NVR HTTP port number with you. The installation program will use **80** as default. You may enter another available port number in “Listen Port” field and click “Apply”.

3. For NVR3 workstation, please execute NVR3 workstation “ACTi_NVR_Standard_Workstation_Install_v3.0.10.34.exe” and follow the install shield to complete the installation.

Download and Documentation

NVR 3 Standard v3.0.10.34 software (server and workstation), the Release Notes, the System Administrator's and User's manuals are all available for download.

You may check "Software NVR" product in "Video Management System" section on ACTi corporate website for updates or release information about this software and documents.
