

System Health Management Solution Package

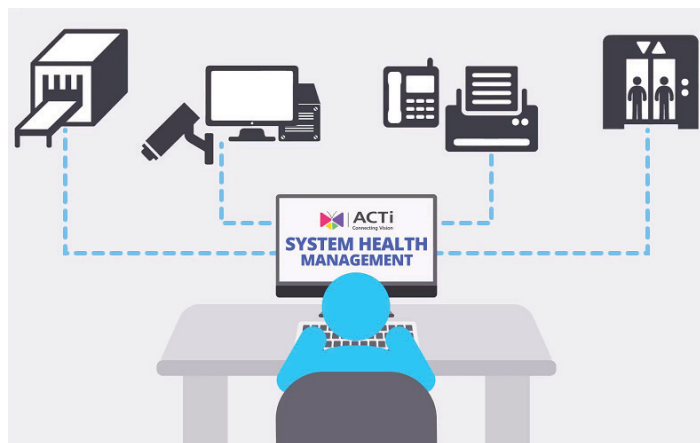

ACTi's System Health Management service is designed to monitor hundreds of critical IP-based devices real time, to be able to know immediately whenever an abnormal situation or failure occurs with those devices.

With instant notification and handling it is possible to prevent losses resulting

from device or network failures and reduce the security-related and operational risks.

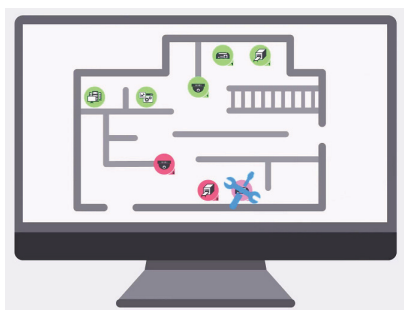

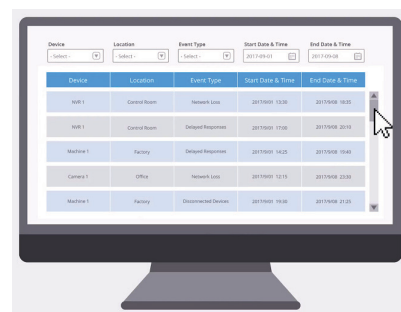

The whole system is running within a small PC dongle.

The system detects the health of the functions of ACTi cameras, NVR and CMS. It can also monitor the accessibility status of any other third party IP device.

Key Features

- Monitors ACTi cameras, NVR and CMS
- Monitors the accessibility of any other IP device by pinging
- Instant alerts on the screen
- Instant notification to e-mail

- E-Map view to easily identify the cluster of disconnected devices
- Reports and graphs
- Reports export to Excel
- User permission management

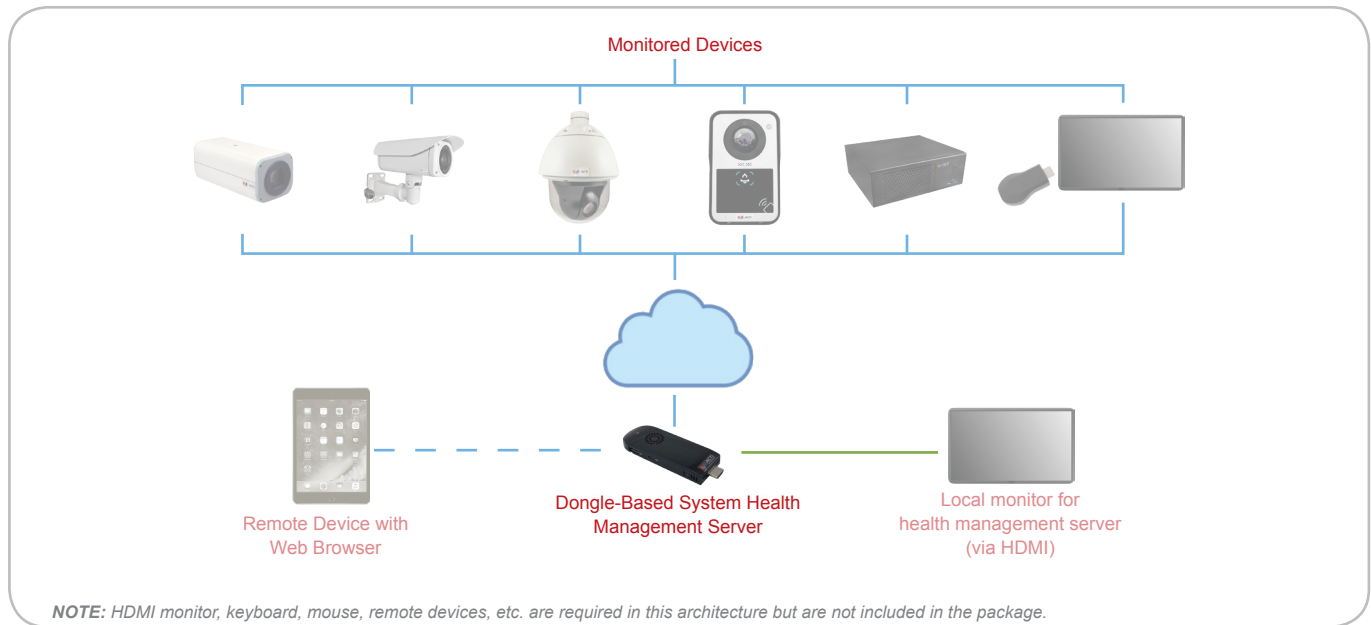

Solution Package Items

Dongle-Based System Health Management Server

- Manages ACTi cameras, NVR and CMS health
 - Manage any third party IP device by connectivity check
 - Alerts, notifications, reports
- Quantity: 1

Solution Architecture

Specifications

Dongle-Based System Health Management Server

Product Type	Server
CPU	Intel Atom Z3735F
RAM	2GB
Operating System	Windows 8.1
USB	USB 2.0 port x 1
System Drive	eMMC, 32GB
Wireless Interface	Wi-Fi (IEEE 802.11b/g/n) Bluetooth
Local Storage	MicroSDHC, MicroSDXC Memory Card slot (card not included)
Local Access	HDMI Monitor
Fan	Yes
Power Source	DC 5V
Power Consumption	10 W (DC)
Weight	52 g (0.11 lb)
Dimensions (W x H x D)	125 mm x 37.6 mm x 14.5 mm (10.24" x 1.48" x 0.57")
Operating Temperature	0°C ~ 40°C (32°F ~ 104°F)
Relative Humidity	10% ~ 85% RH
Approvals	CE, FCC, UL

Ordering Information

System Health Management Solution Package

Solution Package Ordering Number	K00017
Additional Server License Ordering Part Number (optional, up to 1000)	LMAS3000
