

# Hybrid DVR

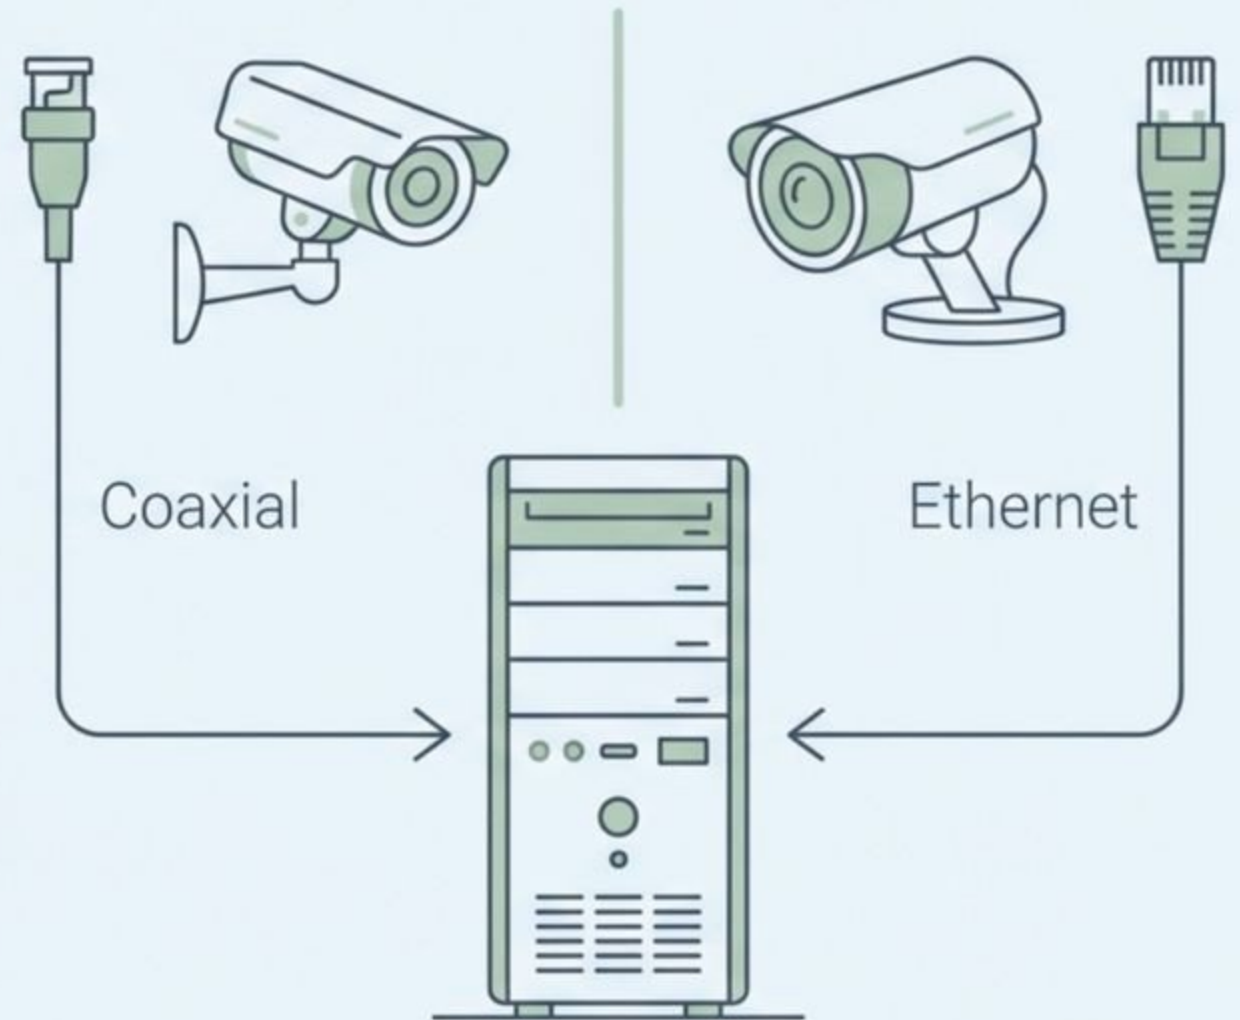

Cost-Effective Modernization for Price-Driven Projects

# Overview

**Product Definition:** A flexible recording solution designed to combine HD analog cameras with IP cameras.

**Capacity Range:** Supports 6 to 24 channels depending on the model.

**Target Application:** Specifically engineered for price-driven projects where budget efficiency is paramount.

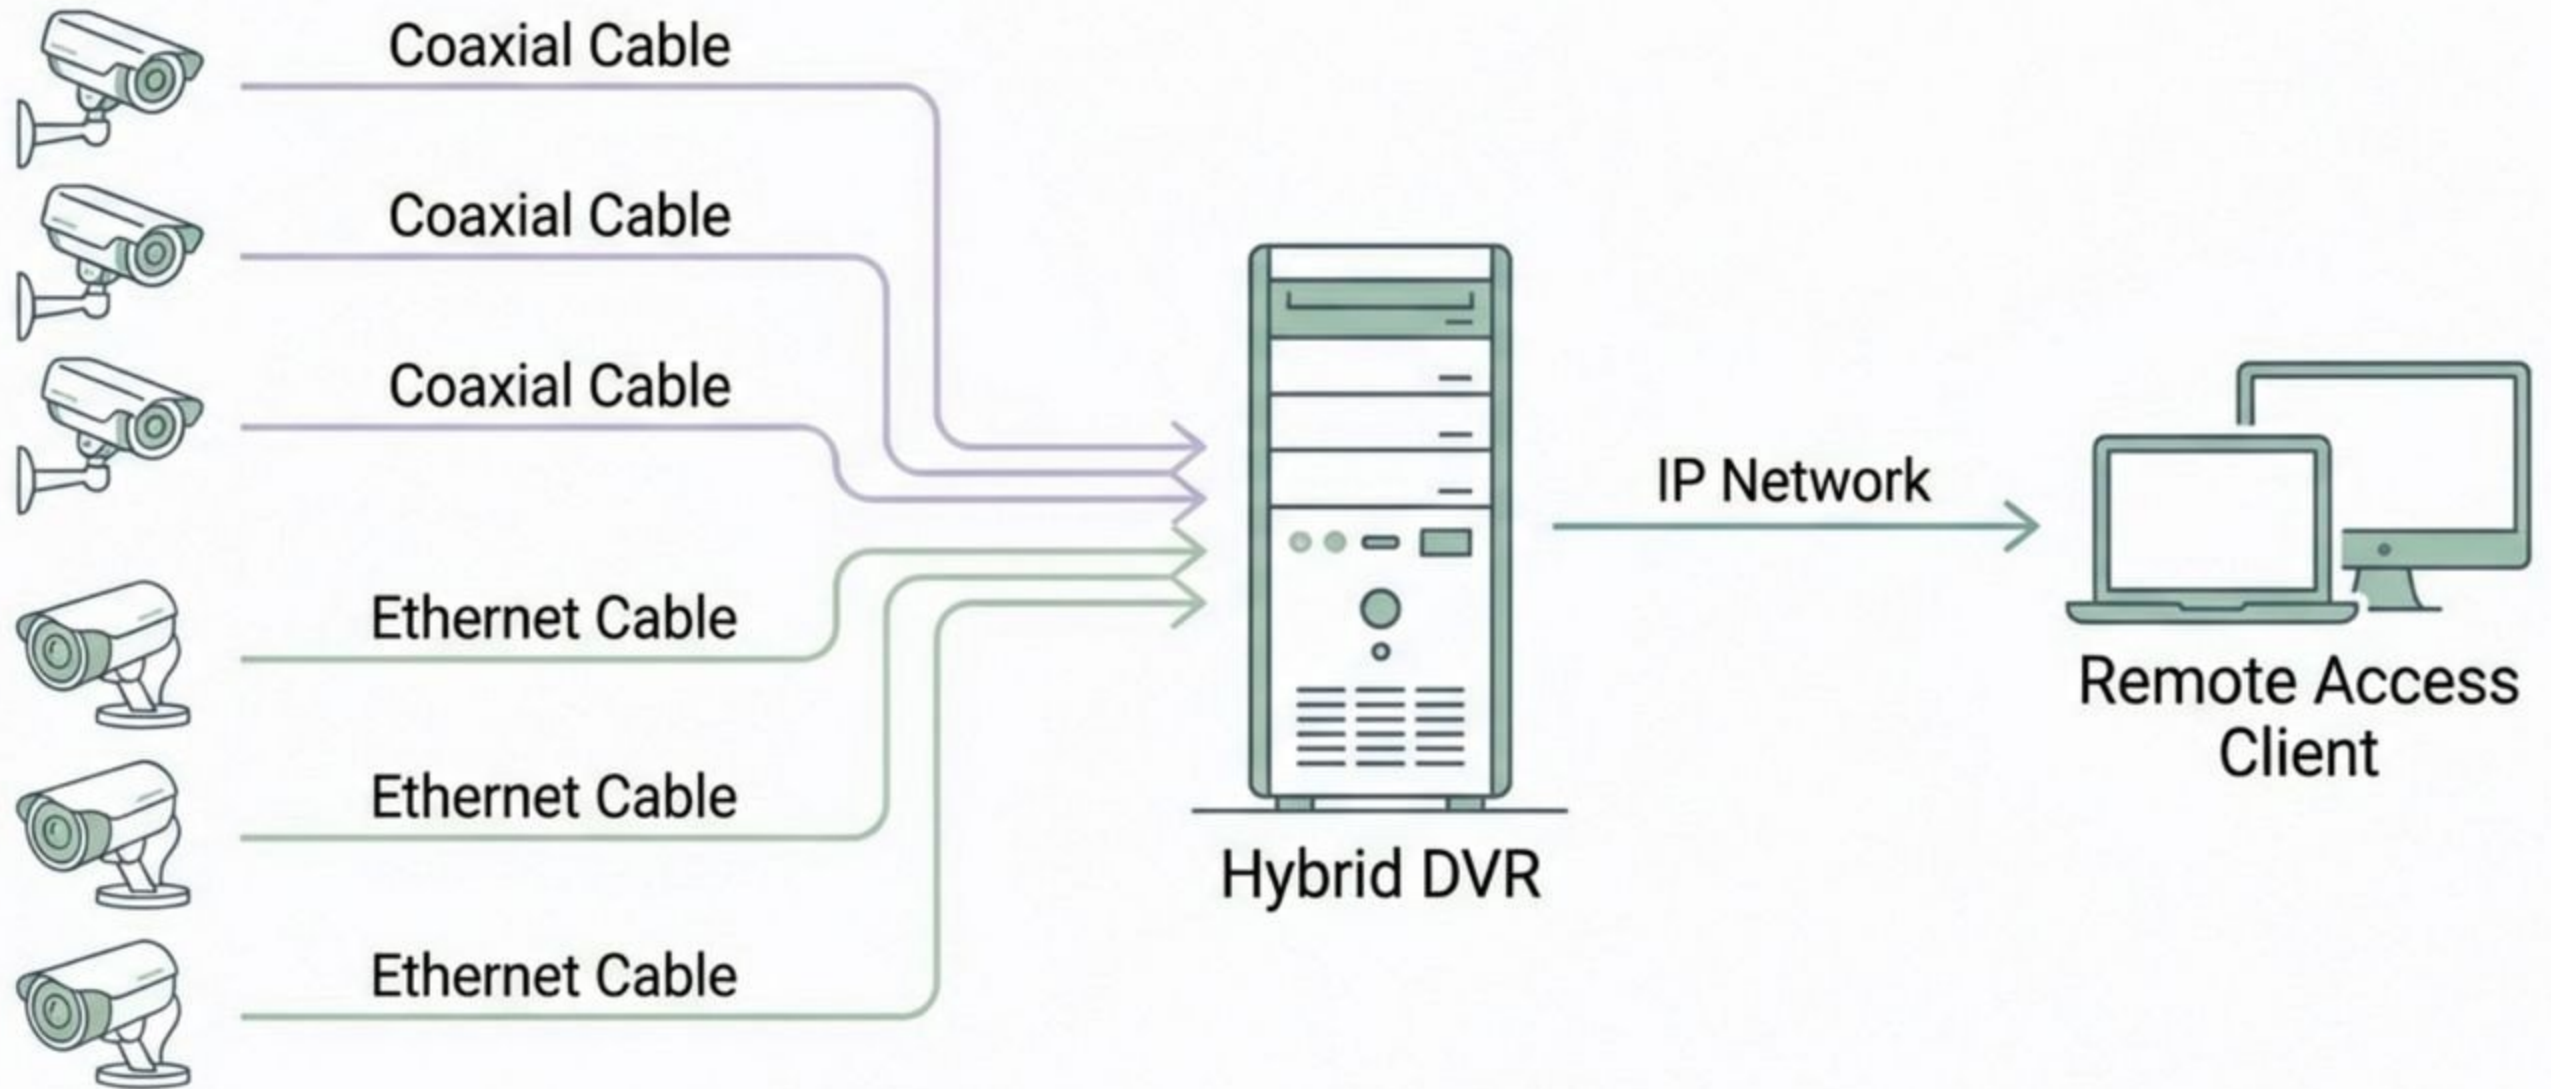

# Features

- **Hybrid Design:** Seamless support for both analog and IP cameras.
- **Universal Format Support:** Supports all 4 popular analog formats: **TVI** / **AHD** / **CVI** / **CVBS**.
- **NDAA Compliant:** Approved for use in US federal government and critical infrastructure projects.
- **Remote Access:** View live and recorded footage from anywhere over the IP network.
- **Plug & Play:** Simplified setup and configuration.

# Architectures

# Applications

## SMB Retail

Ideal for convenience stores with existing analog cabling. Add high-resolution IP cameras at key points without rewiring the entire store.

## Residential Complexes

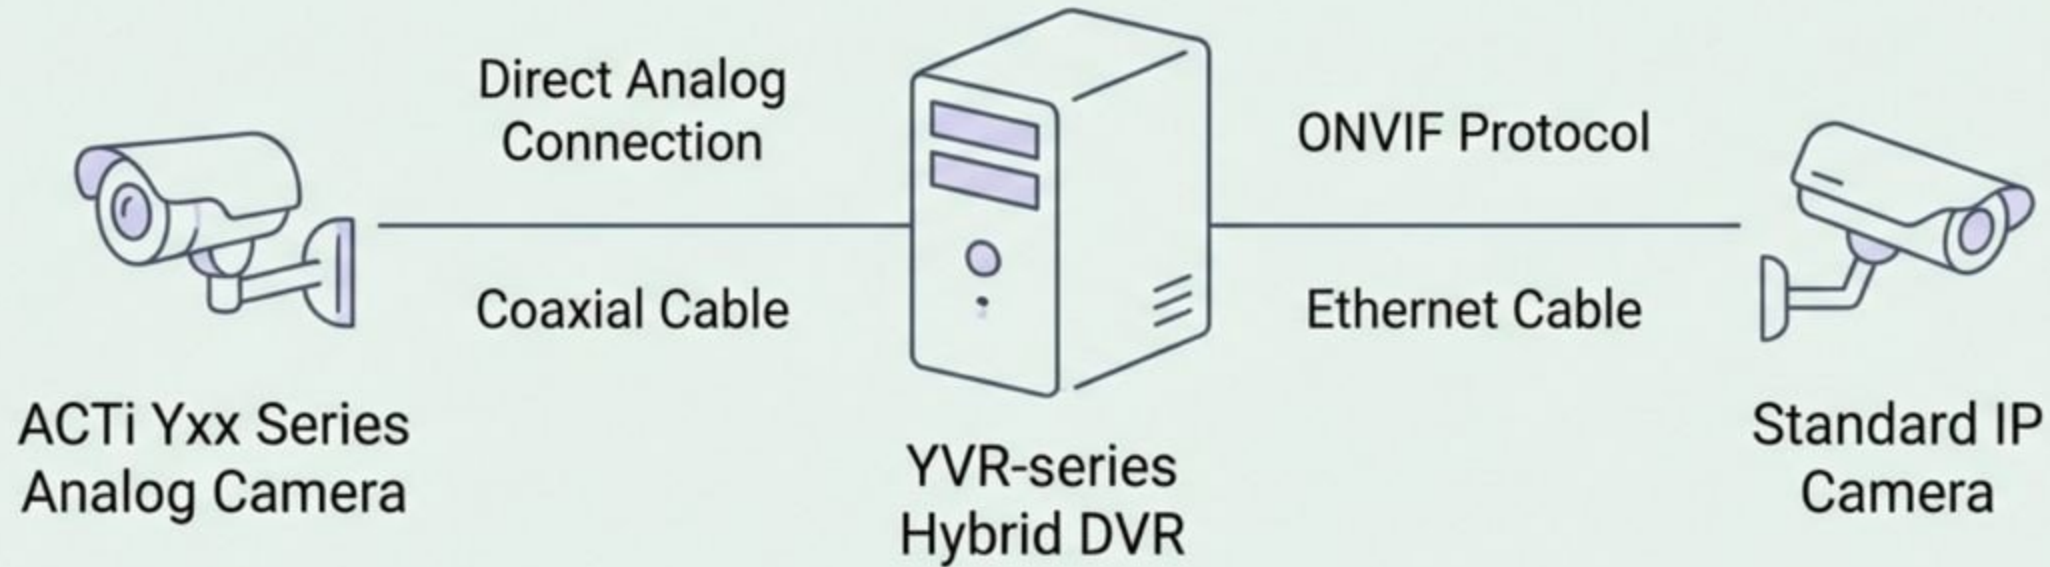

Cost-effective upgrades for housing associations. Maintain legacy hallway cameras while upgrading entry points to IP.

## Education (K-12)

Budget-friendly expansion for schools. Add coverage to temporary classrooms or parking lots utilizing existing infrastructure.

# Solutions

**\*\*Unified Management\*\***: The YVR-series acts as the central hub for mixed-technology sites.

**\*\*Compatibility\*\***: Seamless integration with ACTi Yxx Series (Analog) and third-party IP cameras via ONVIF.

Universal Analog Support: All models support TVI / AHD / CVI / CVBS formats.

# Summary

**Cost Efficiency:** Ideal for budget-constrained projects requiring modernization.

**Flexibility:** Supports 6 to 24 channels with a mix of Analog and IP.

**Compatibility:** The only major solution supporting all 4 analog formats (TVI/AHD/CVI/CVBS).

**Compliance:** Full NDAA compliance ensures eligibility for regulated markets.

**Simplicity:** Plug & Play setup with remote access capabilities.
