

Cloud NVR

Worry-Free Video Surveillance Service

Overview

Save the cost of having NVR hardware and its maintenance by using the worry-free cloud NVR service instead.

Zero Maintenance

No personnel required to maintain local NVR servers

Mobile Solution

Ideal for cameras inside vehicles where vibration damages local HDDs

Data Security

Ensures recordings cannot be physically accessed, stolen, or destroyed onsite

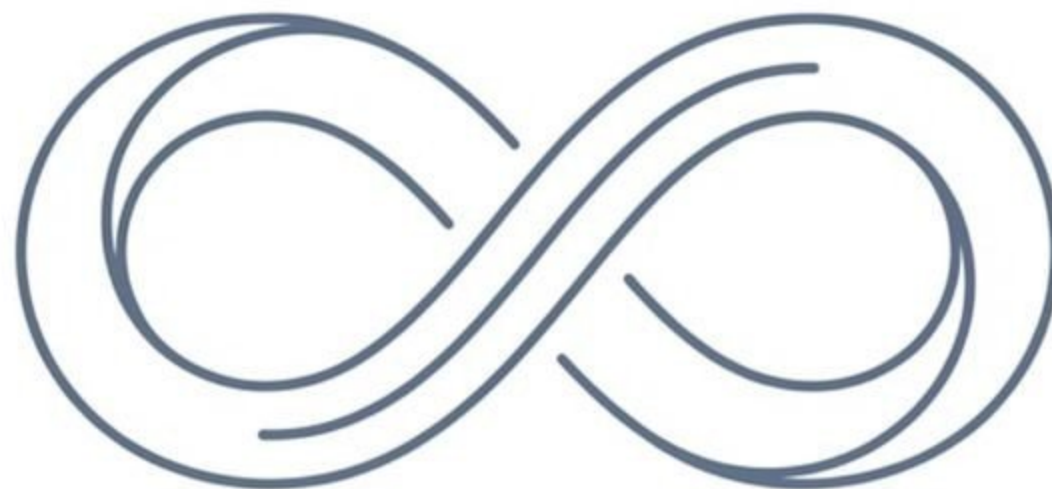

Temporary Deployment

Perfect for construction sites or events requiring flexible setup

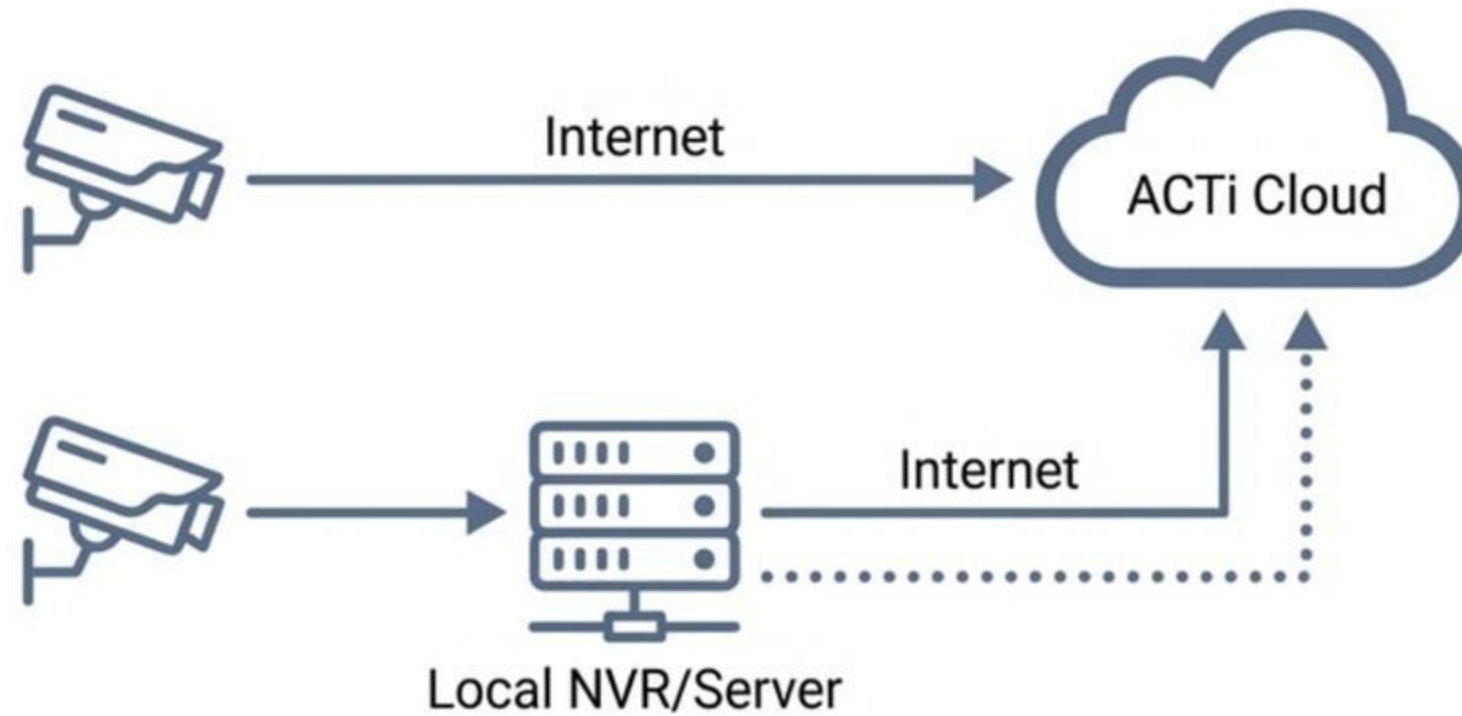

Cloud service fees are defined per camera per month.

Features

- ✓ **Recording Flexibility**
Choose between Generic (Continuous) recording or Motion-triggered recording options.
- ✓ **Resolution Agnostic**
Supports cameras of any resolution.
- ✓ **Retention Range**
Wide variety of retention options available from 7 to 180 days.
- ✓ **Integration**
Fully accessible with NVR 3 client applications.
- ✓ **Scalability**
Supports an unlimited number of cameras.
- ✓ **Contract Terms**
1-year and 2-year contracts available with flexible extensions.

Architectures

Hybrid Solutions

Combine management methods—manage some channels via the cloud platform while keeping others on local conventional NVR servers.

Migration Flexibility

Seamlessly migrate from conventional NVR to Cloud NVR anytime, and vice versa.

Applications

Transportation (Mobile)

For buses and trains where hardware vibration is a risk. Cloud storage ensures data integrity.

Retail & Unmanned Facilities

For chains with no onsite IT personnel. Centralized management without local server maintenance.

Construction & Events

For temporary sites needing short-term, hardware-light surveillance.

High-Security Zones

Sites where physical theft of the recorder is a threat. Evidence is preserved off-site.

Solutions

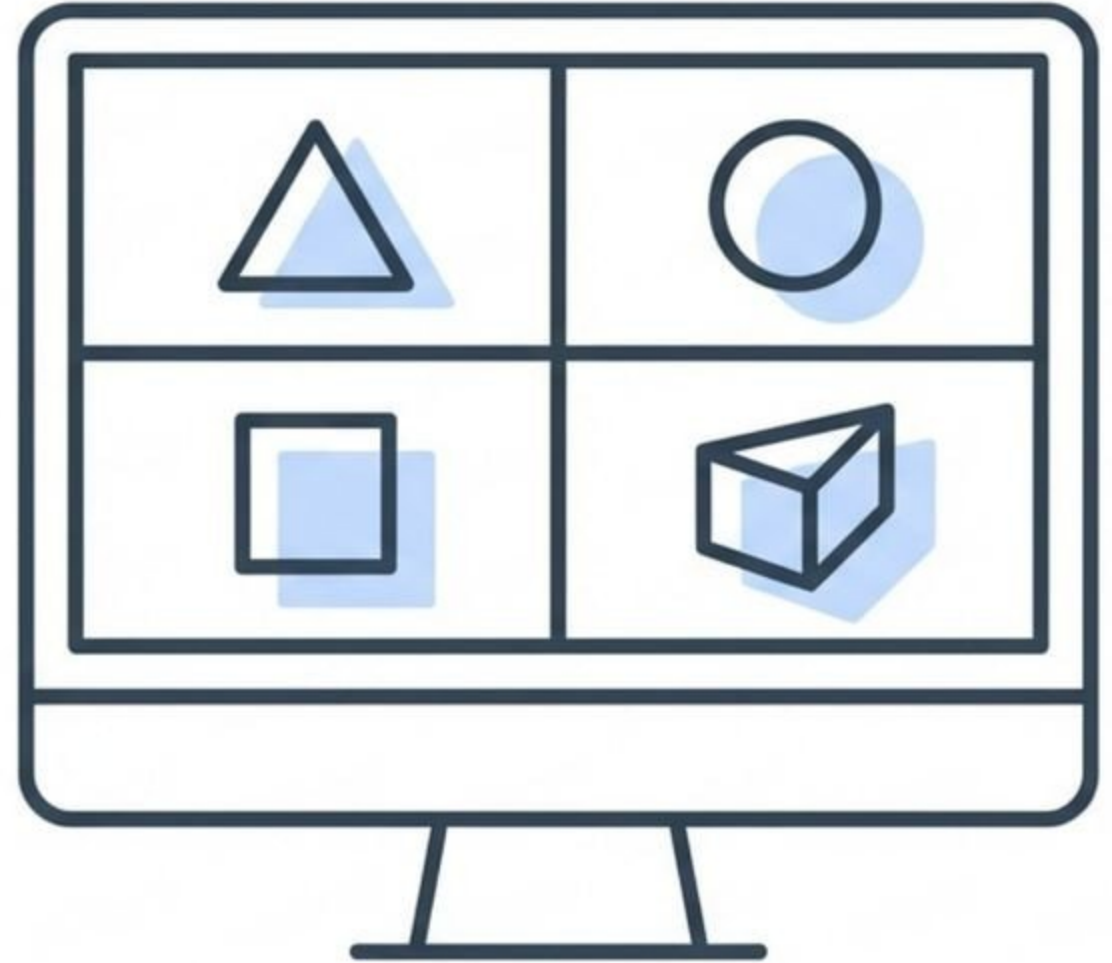

Integration Ecosystem

- Works with NVR 3: Cloud NVR channels are accessible directly through the standard NVR 3 client interfaces.
- TV Wall Support: Display cloud streams alongside local streams on TV Walls via the NVR 3 Workstation.

Cost Advantage

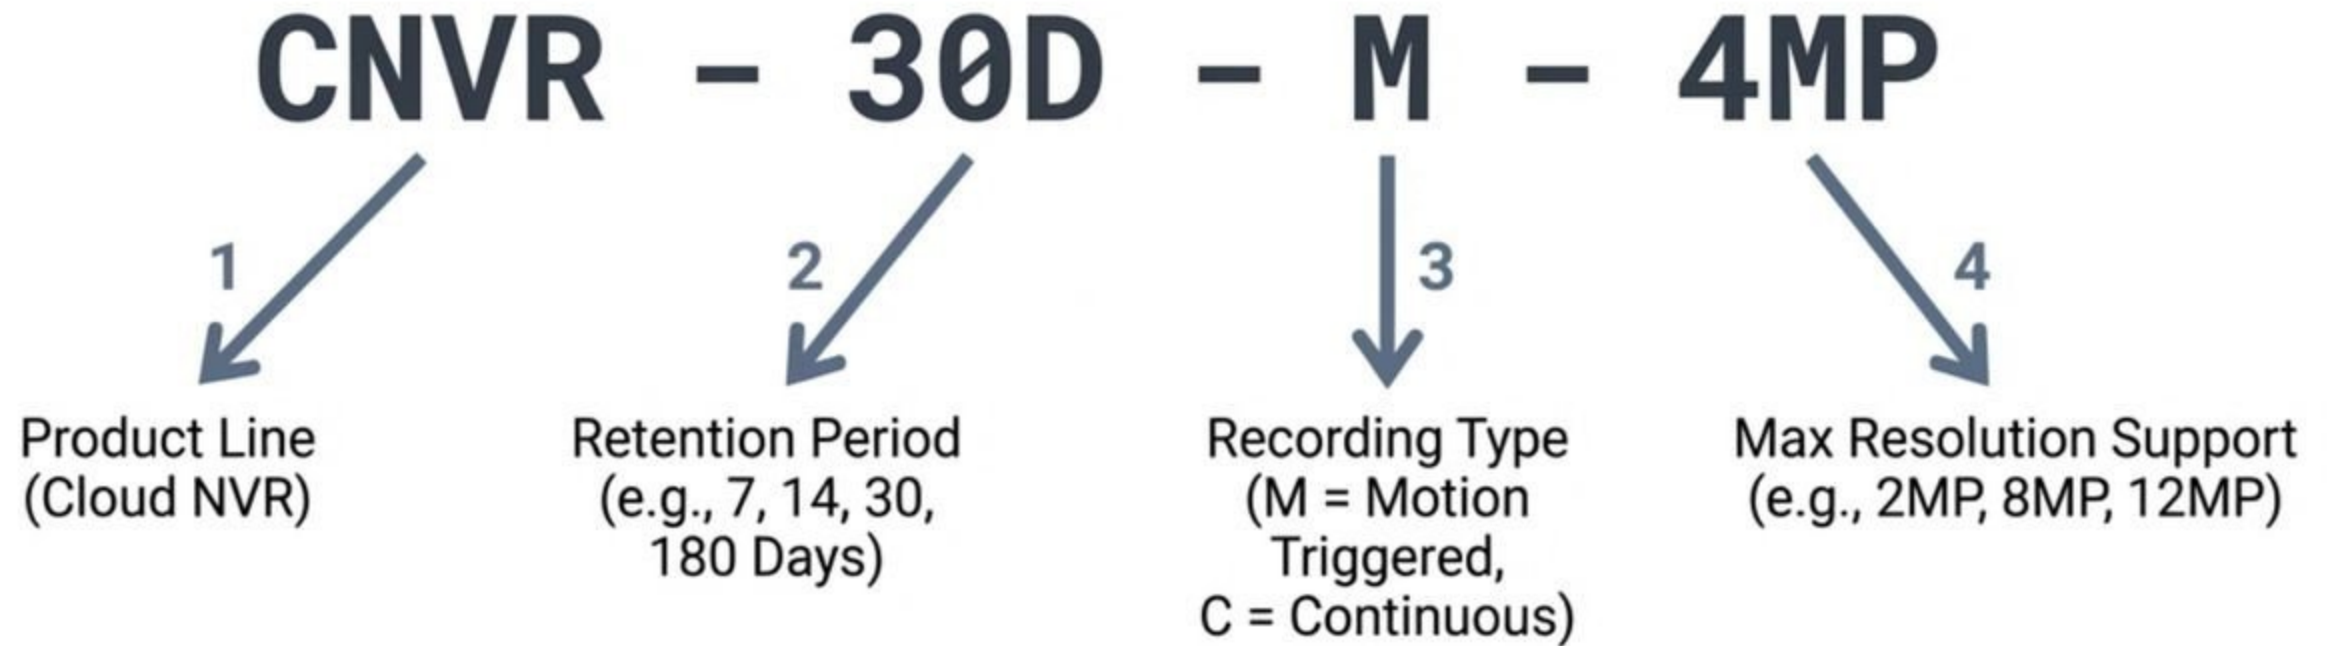

Why thousands are switching: Save Big, Secure More.

- 30%-50% lower costs than competitors.
- Eliminates upfront hardware CAPEX.

Product Introduction

Naming Convention Decoder

Understanding these codes allows for precise customization of service levels per camera.

Comparison

Traditional NVR vs. ACTi Cloud NVR

Traditional NVR

- **Hardware Cost:** High (Server + HDDs)
- **Maintenance:** User managed (HDD failures risk)
- **Data Safety:** Vulnerable to onsite theft or damage
- **Scalability:** Limited by physical drive bays

ACTi Cloud NVR

- **Hardware Cost:** Zero (Service based)
- **Maintenance:** Provider managed (Worry-free)
- **Data Safety:** Offsite redundancy, secure
- **Scalability:** Unlimited, instant expansion

Summary

Cost Effective

Eliminate NVR hardware and maintenance costs; 30-50% savings over competitors.

Flexible

Options for Motion/Continuous recording, 7-180 days retention, and up to 12MP resolution.

Secure & Reliable

Ideal for mobile, temporary, and high-security applications where local storage is a risk.

Integrated

Seamlessly works with NVR 3 and supports hybrid architectures.
