

Event Recording

Save storage of the NVR by only recording when something is happening.

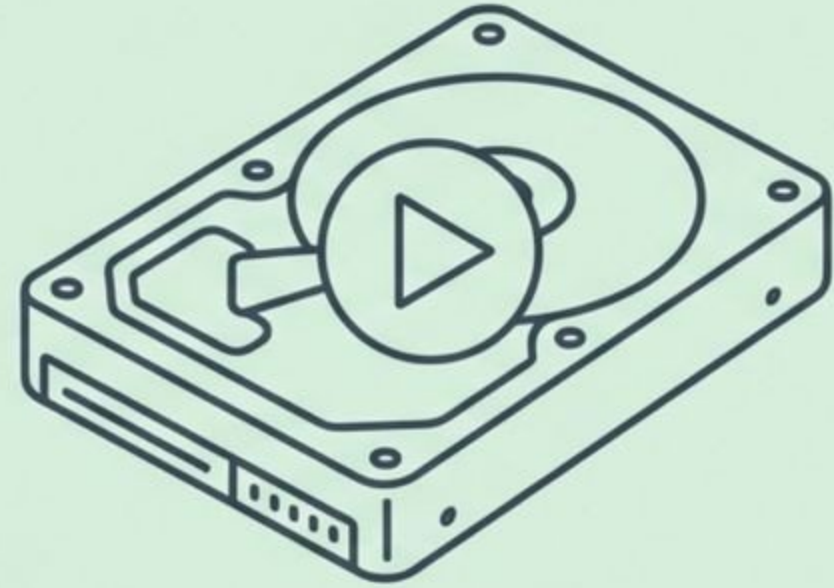

Overview

The Storage vs. Evidence Dilemma

Continuous 24/7 Recording

Creates seamless evidence but demands massive, costly storage space.

Event Recording

Triggers recording only during active events, drastically reducing storage requirements and solution costs.

Features

Intelligent Capture & Retrieval

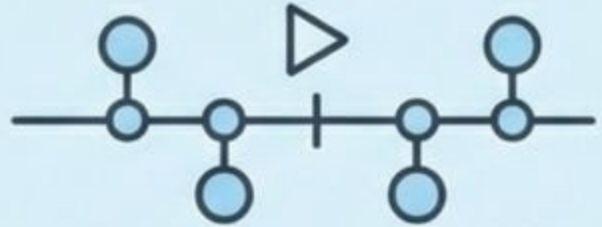

Event-Triggered Activation

Initiates recording via motion detection, panic buttons, or AI-based object detection alerts.

Pre-Event Buffering

Captures 10-20 seconds of footage prior to the trigger, ensuring no crucial context is lost.

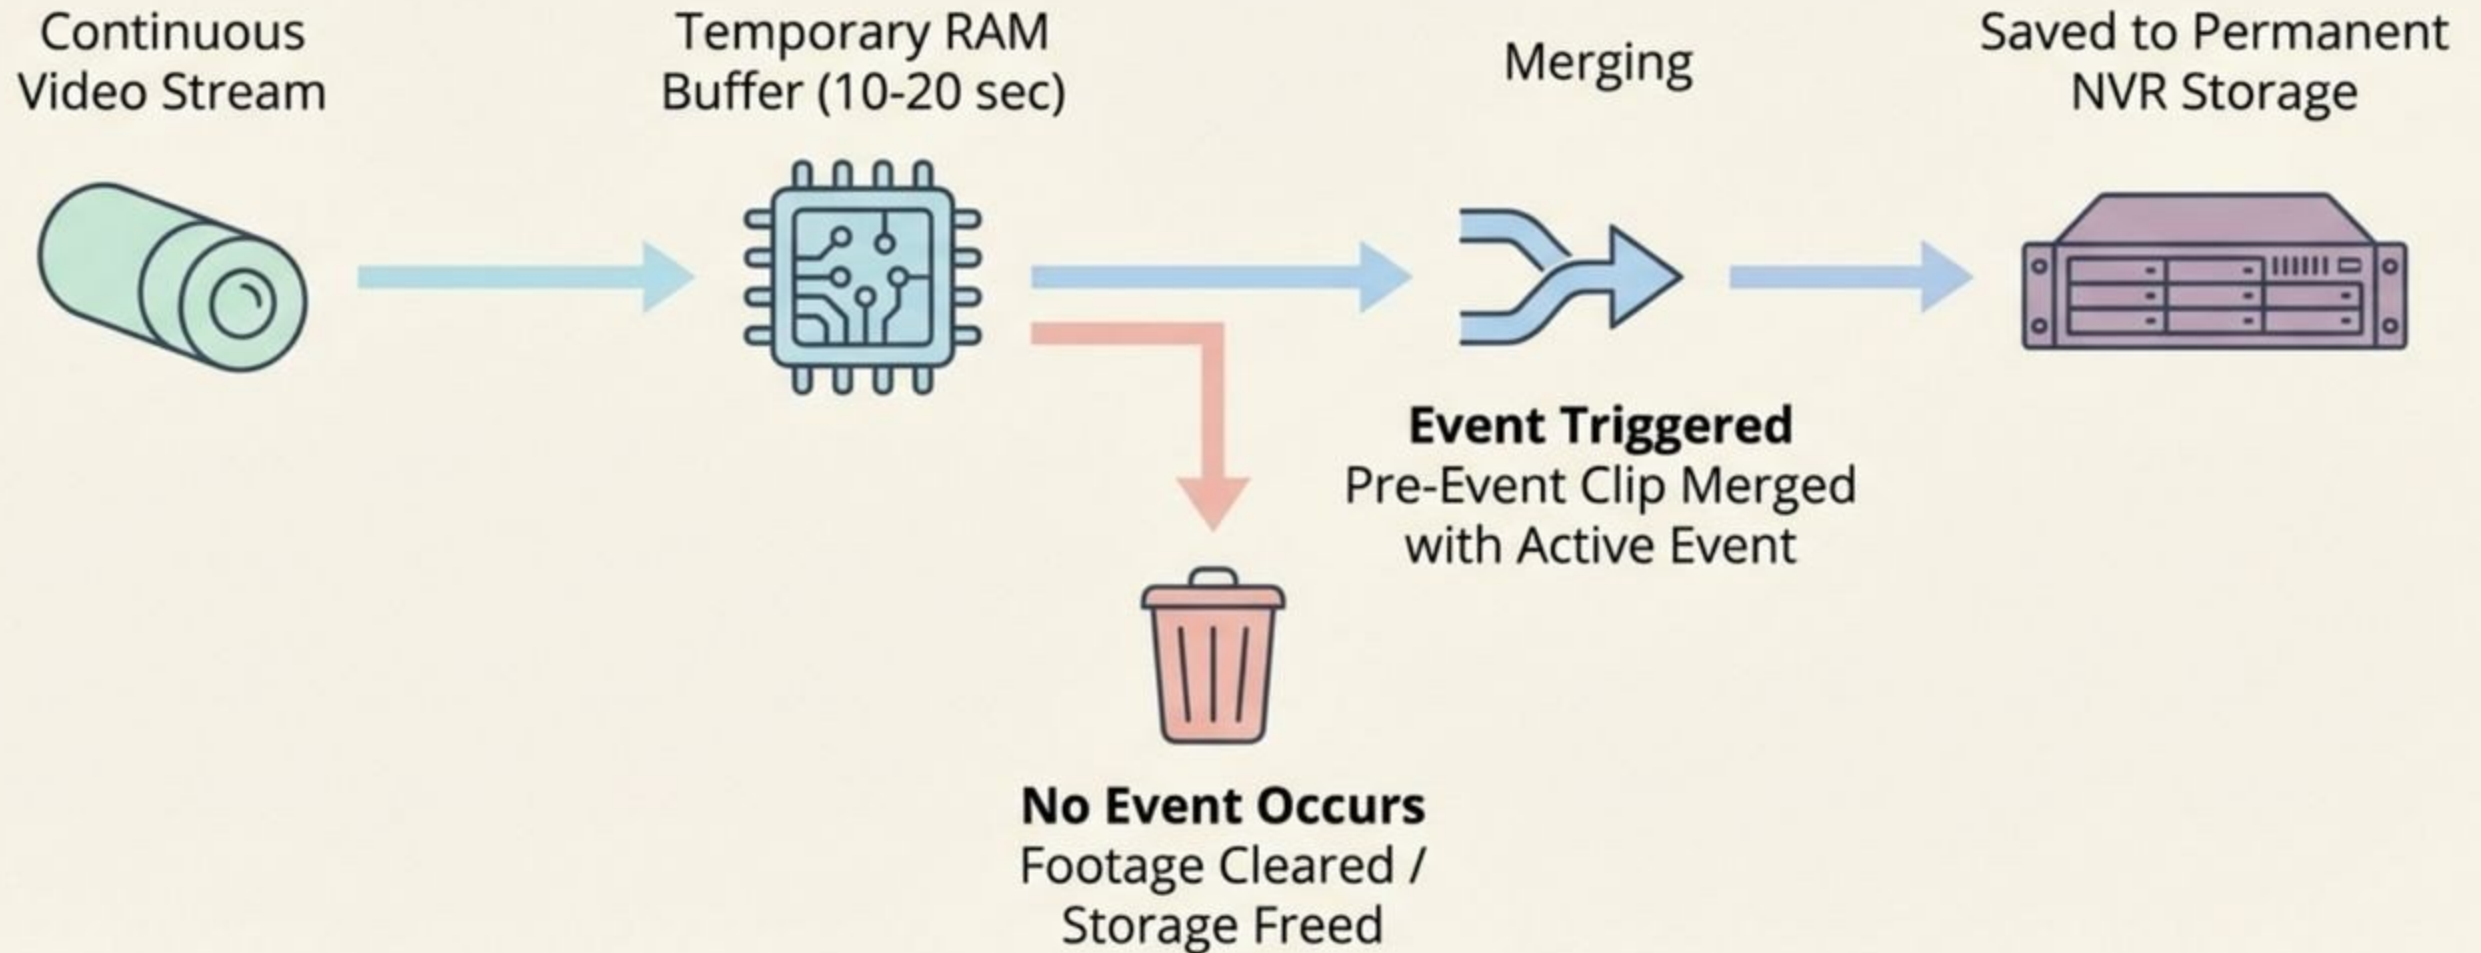

Smart Playback

Conveniently browse through recorded clips using intuitive timeline or dedicated event search interfaces.

Architectures

The Mechanics of Pre-Event Buffering

Applications

Maximizing ROI in Low-Motion Environments

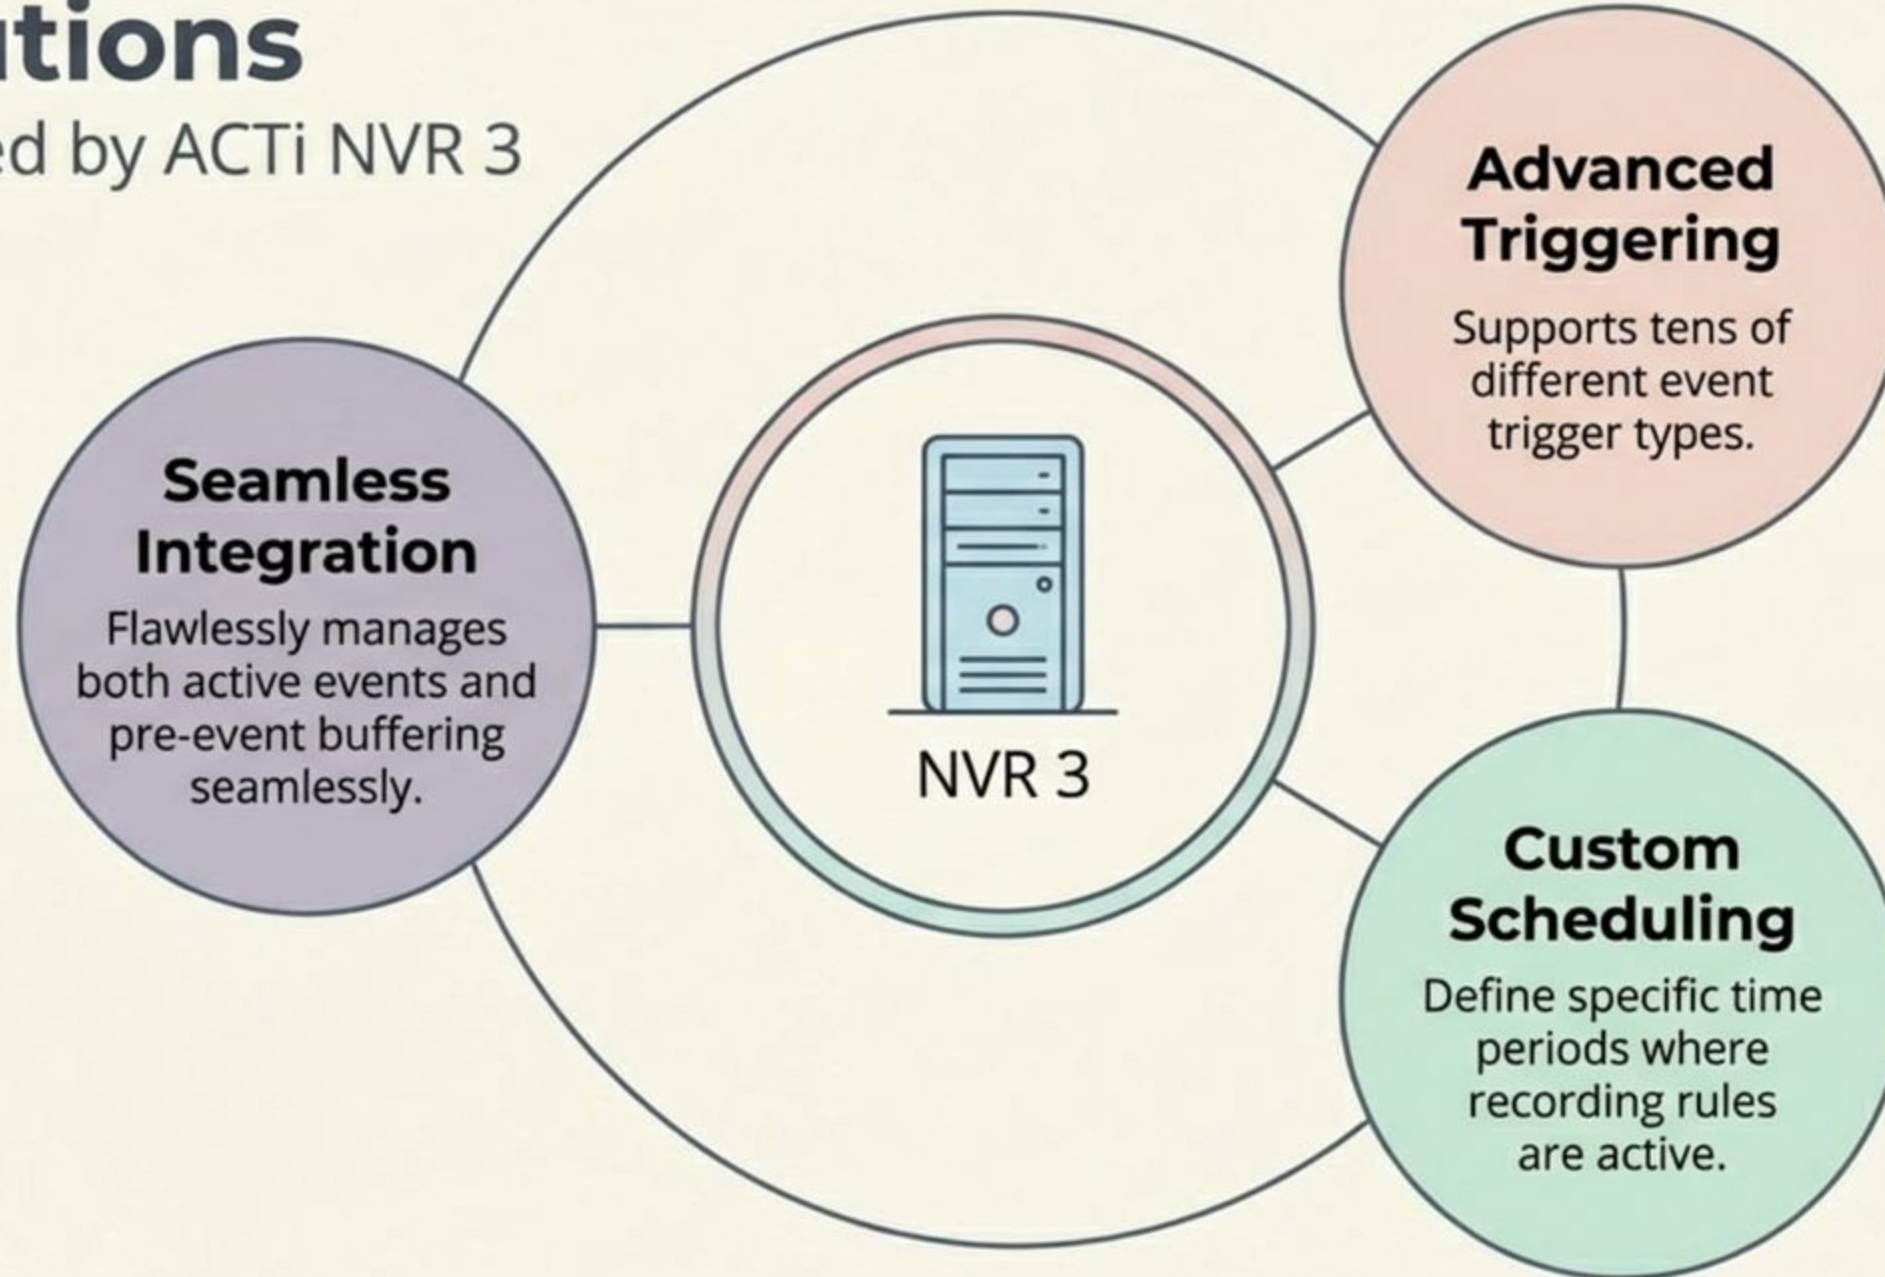

Recording a still image 90% of the time is a waste of storage.

- ✓ Ideal for sites where storage costs are a critical, limiting factor.
- ✓ Perfect for environments with infrequent physical activity.
- ✓ Ensures storage budget is spent exclusively on actionable evidence.

Solutions

Powered by ACTi NVR 3

Product Introduction

The Recording Portfolio

Software NVRs

Highly scalable software platform supporting dynamic event-based storage optimization.

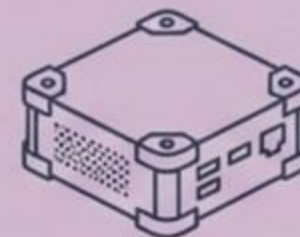

Enterprise NVRs (INR)

High-capacity server hardware supporting dynamic event-based storage optimization.

Standalone NVRs (ENR/ZNR)

Turnkey tower appliances supporting dynamic event-based storage optimization.

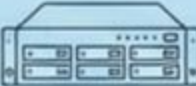

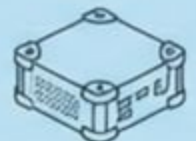

Specialty & Mobile (BNR/GNR/KNR)

Compact format models supporting dynamic event-based storage optimization.

Product Matrix

Supported ACTi Systems

 Software NVRs	 Standalone Servers	 Enterprise Servers	 Specialty Servers
NVR 3 Business NVR 3 Corporate	ENR-010P ENR-020P ENR-130 ENR-421 ZNR-126 ZNR-127 ZNR-129 ZNR-224 ZNR-423 ZNR-424 ZNR-429 ZNR-429-32ch	INR-401 INR-406 INR-407 INR-413 INR-415 INR-416 INR-417 INR-418 INR-490 INR-930 INR-960	BNR-300 GNR-350 KNR-120 KNR-121 KNR-421

Comparison

Selecting the Right NVR Family

Software (NVR 3)

Highly scalable, best for integrators utilizing existing off-the-shelf commercial servers.

Standalone (ENR/ZNR Series)

Turnkey, plug-and-play upright tower systems. Best for medium businesses prioritizing ease of installation.

Enterprise (INR Series)

High-capacity, multi-bay rack-mount units designed for maximum storage redundancy and large-scale deployments.

Summary

The Value of Intelligent Recording

Minimize Storage Costs

Stop paying for disk space to record empty rooms and still images.

Maximize Evidence Quality

Ensure pre-event context is always captured via intelligent RAM buffering.

Broad Compatibility

Fully integrated across ACTi's extensive portfolio of Software, Standalone, and Enterprise NVRs.
