

Backup Recording

Archiving Solutions for Maximum Data Protection

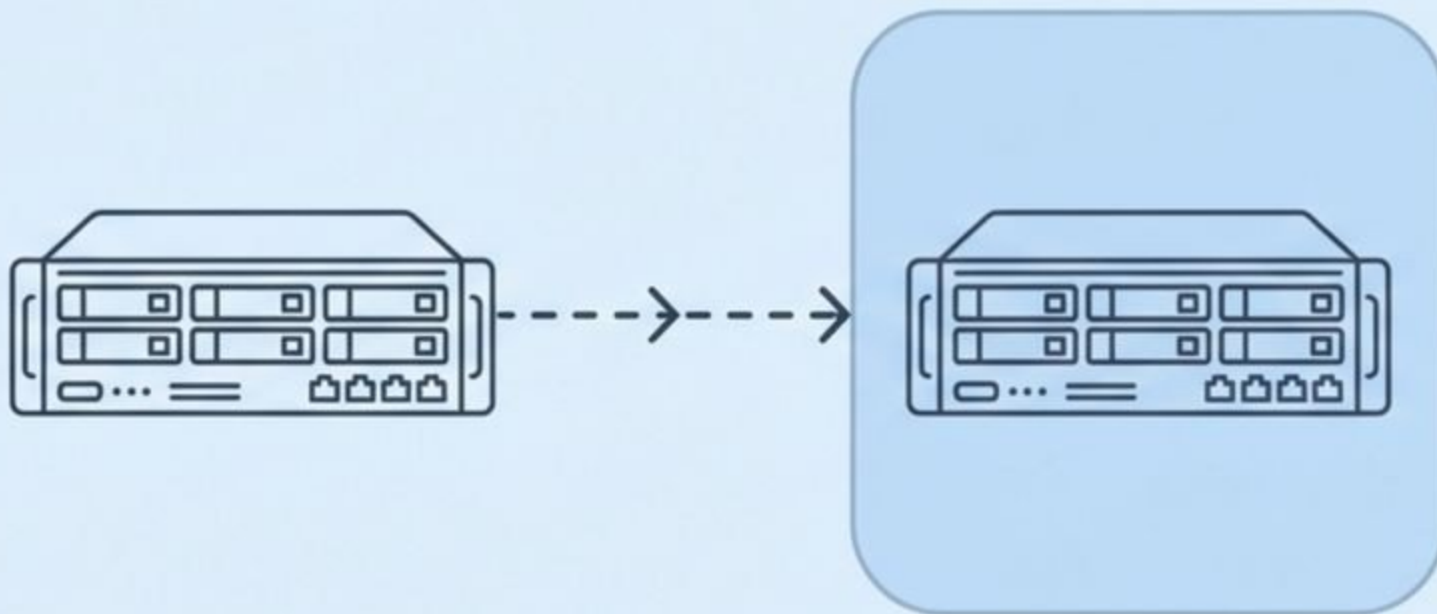

2026/03/06

Overview

The Fail-Proof Archiving Solution

- Dedicated backup server on standby in the network.
- Periodically uploads copies of recordings from NVR servers.
- Guarantees video clips are stored in at least 2 physical locations.

Features

Automated Safeguards for System Integrators

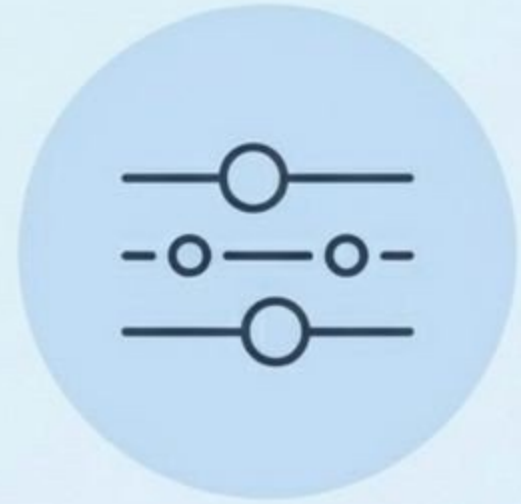

Perform scheduled automatic backups

Zero manual intervention required for daily archiving.

Ensure maximum data protection

A dedicated safety net against single points of failure.

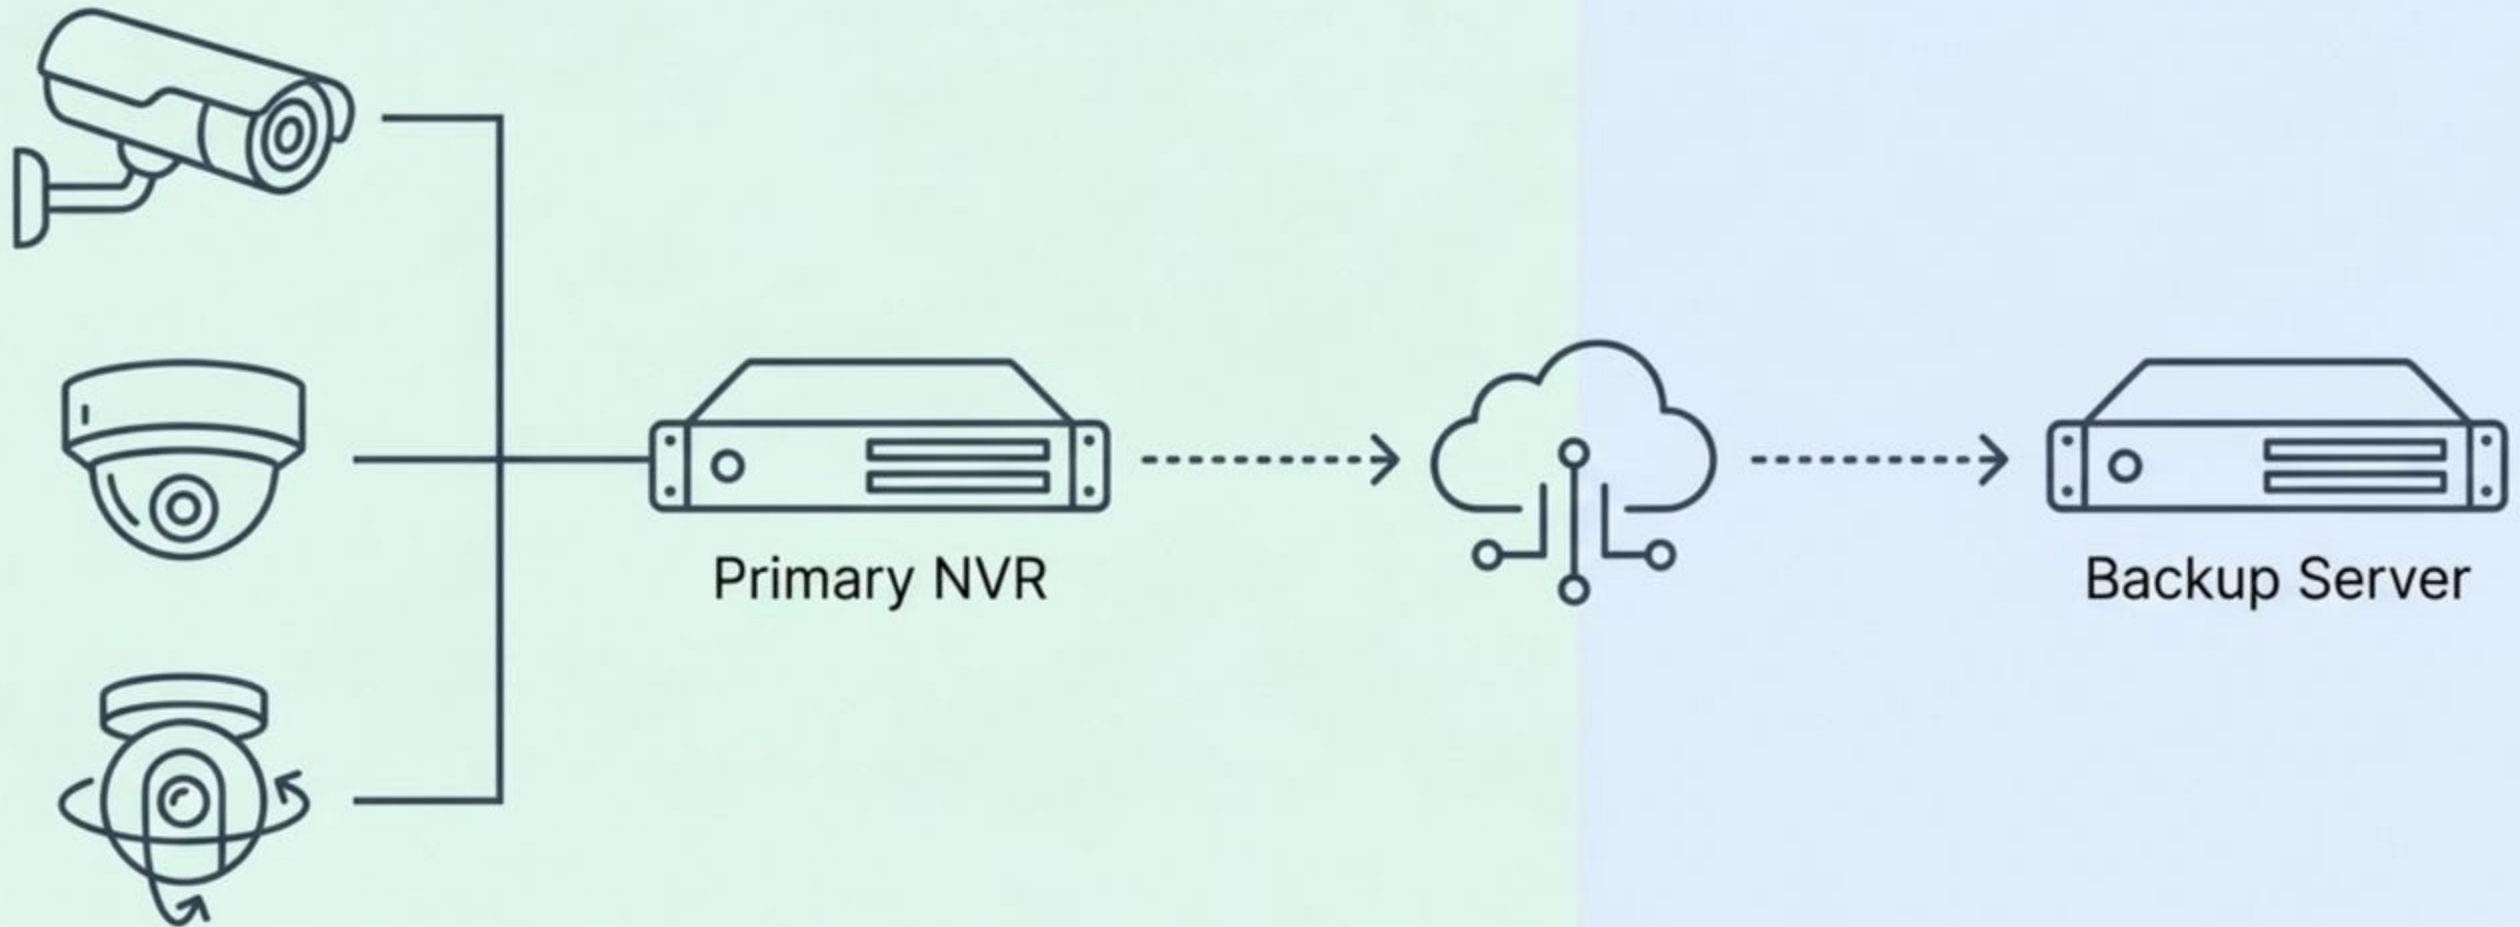

User-defined schedule

Total flexibility over periodic uploads to optimize network bandwidth.

Architectures

Network Standby & Dual-Location Topology

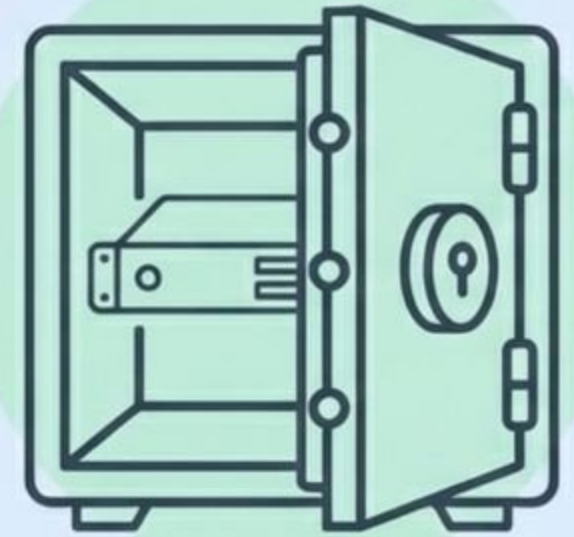

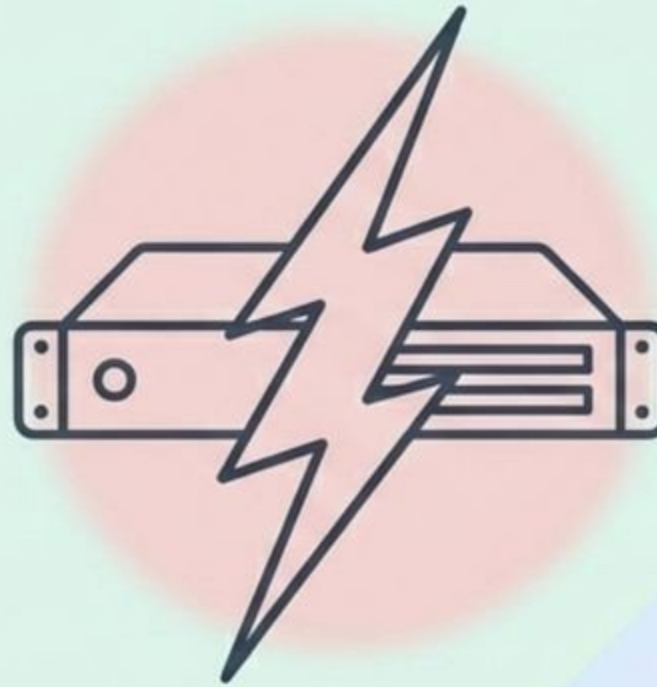

- Primary Recorder (NVR) captures live streams.
- Dedicated Backup Server acts as a network standby.
- Data flows via automated schedules across the LAN/WAN.

Applications

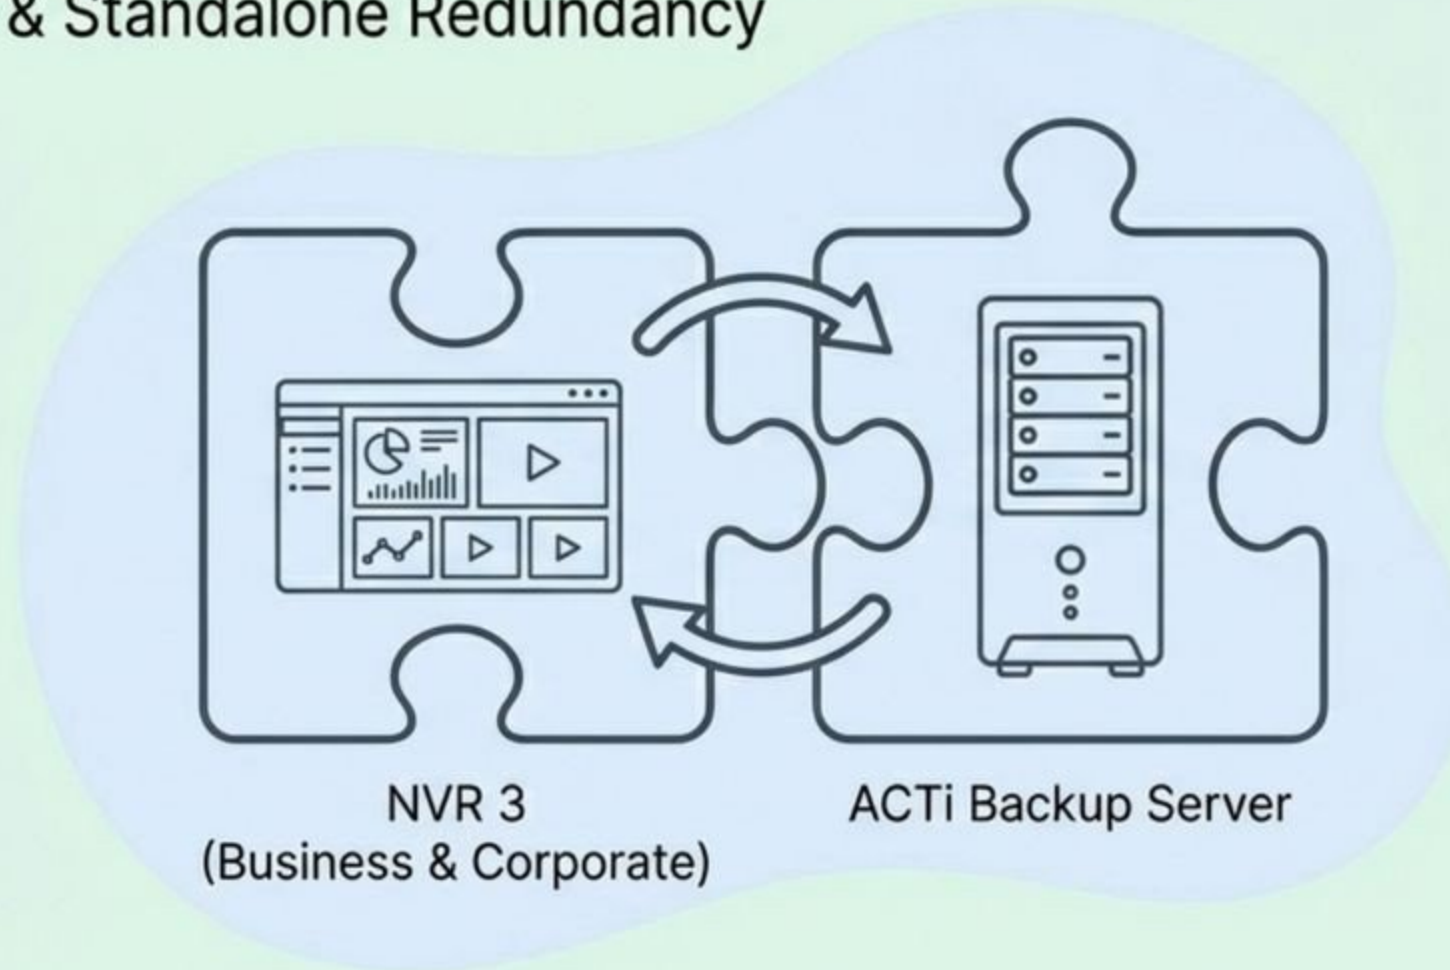

Mission Critical Projects & Intrusion Protection

- Essential for mission critical projects requiring at least 2 network copies.
- Protects against primary recorder hardware failure.
- Thwarts intentional tampering: Even if the primary NVR is destroyed, evidence is preserved off-site.

Solutions

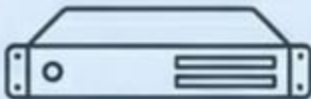

NVR 3 Integration & Standalone Redundancy

- Seamlessly pairs ACTi's NVR 3 software with dedicated ACTi Backup Servers.
- Compatible across both NVR 3 Business and NVR 3 Corporate platforms.
- Provides robust standalone server capacity for high-volume enterprise archiving.

Product Introduction

Product Matrix

 BNR & GNR Series	 INR Series	 Software
BNR-300	INR-401	NVR 3 Business
GNR-350	INR-406	NVR 3 Corporate
	INR-407	
	INR-413	
	INR-415	
	INR-416	
	INR-417	
	INR-418	
	INR-490	
	INR-930	
	INR-960	

Product Introduction

Comparison

Tower / Business Tier

- Software: NVR 3 Business (for mid-size commercial applications)
- Hardware: Tower Models (BNR-300, GNR-350) for standalone deployments

Rack-Mount / Corporate Tier

- Software: NVR 3 Corporate (for large-scale, multi-site architectures)
- Hardware: Rack-Mount Servers (INR Series up to INR-960) for mission-critical data centers

Summary

The Integrator's Advantage

- Automated, schedule-based archiving ensures continuous data protection.
- Dual-location topology neutralizes the threat of hardware destruction and tampering.
- Comprehensive SKU matrix (BNR, GNR, INR) seamlessly integrated with NVR 3 to fit any mission-critical vertical.
