Firmware Version

Firmware Version: **A1D-508-S6.01.03-AC**

Release Date: 2026.07.17

Supported Models: L31, L33, L41, L43, L51, L53, L71, L73, L81, L83

New Features

1. (S6.01.03) Added support for Bonjour.

Enhancements

1. (S6.01.03) Passed ONVIF Device Test Tool v25.12 rev. 227

Remark

1. The following functions will be supported on future firmware version with free upgrade.
 - a. SRTP 、LLDP 、IPv6
 - b. DynDDNS
2. ANS (ACTi Notification Services) is ACTi's implementation of Amazon SNS through the usage of ACTi's server domain and ACTi's member center accounts. Please contact us for more information regarding Notification Services.
3. H.265 video is supported if the graphics card on the remote PC supports H.265 and the web browser can utilize the graphics card.
4. If there is no video in the Intelligent Video page, please check the antivirus software running on the computer, it may block the function.
5. Supports TAICS / CNS16120 / CNS16132 security compliance. When the security level is set to TAICS mode, the camera will automatically disable HTTP, Control Server, Streaming Server, and RTSP Server ports to meet the TAICS standard. This may result in the loss of video display on the Intelligent Video page.
6. After changing the security level from TAICS to Standard, the HTTP port will not be enabled automatically, please check the required port settings on the camera.

Download and Documentation

S6.01.03 has been officially released. The Firmware User Manual and Release Notes are available for download on ACTi website.
